

LEGEND

- 1 **New Entry** - Remove the existing cattle stockyard and install ornamental garden beds and tree planting to create a visually prominent entry to the vineyards and eco-lodges. New signage and fencing to be incorporated.
- 2 **Vineyard Lodges** - The vineyard lodges provide a unique experience of nestled amongst the vines.
- 3 **Welcome Garden** - A highly designed ornamental garden welcomes the visitor and helps set the scene for the vineyard. It provides a physical and visual barrier between the residence and the cellar door / lodge operations.
- 4 **Event Space** - An expanded orchard and designated events space where large events can take place.
- 5 **The Orchard Arbour** - A feature of the vineyard the arbour can be used for functions and weddings within the orchard setting. A small clearing provides space for gatherings and takes advantage of the views beyond.
- 6 **Cellar Door** - The cellar door can be utilised for indoor events and uses the large outdoor deck for overflow space overlooking the ornamental lake.
- 7 **Ornamental Lake** - A central feature of the vineyard and eco-lodges and can be used as part of the flood mitigation and irrigation.
- 8 **Overflow Area** - This space can become overflow space for very large events / functions as well as overflow parking.
- 9 **Eco-Lodges** - The lodges overlook the revegetated creek gully. Privacy between each lodge is created through orientation, landscaping and screen walls. They are accessed by walking / golf cart paths.
- 10 **Creek Walk** - The trail follows a constructed overflow creek from the ornamental lake all the way to the natural creek to the south of the vineyard
- 11 **Road Edge Planting** - Ornamental deciduous trees align the road and creates an attractive edge to the vineyards.
